Cos that's my girl, that's my girl, that's my girl, that's
my girl
And she's the baddest thing I've seen in the world
You know that's my girl

They stop and stare but I'm okay with it
And I don't care cos it's a compliment
And on the real though
It's kinda turning me on. Me on. Hey!

Lady, lady tell me why you wear them heels
Drives 'em crazy you know how it makes me feel
Won't complain cos they all know that
You're coming home with me tonight

Yeah I know she bad, yeah she lookin' good
All these other guys - I know they wish they could
It's an everyday thing and what can I say
With a girl as bad as mine, I'd probably do the same

Cos that's my girl, that's my girl, that's my girl, that's
my girl
And she's the baddest thing I've seen in the world
You know that's my girl

And I won't share but you can look
Cos to be fair my girl is off the hook
From the way she smiles and to the way she loves me
Her hair and lips are curves too she's really got me

Lady lady tell me why you wear them heels
Drives 'em crazy you know how it makes me feel

Won't complain cos they all know that you're coming
home with me tonight

Yeah I know she bad, yeah she lookin' good
All these other guys - I know they wish they could
It's an everyday thing and what can I say
With a girl as bad as mine, I'd probably do the same

Cos that's my girl, that's my girl, that's my girl, that's

my girl
And she's the baddest thing I've seen in the world
You know that's my girl

She the one, she the one, she the one for me
She the one, she the one yeah - all that I need
She the one, she the one yeah, that's my baby - yeah
that's my girl.
I want the world to see

Yeah I know she bad, yeah she lookin' good
All these other guys - I know they wish they could
It's an everyday thing and what can I say
With a girl as bad as mine, I'd probably do the same

Cos that's my girl, that's my girl, that's my girl, that's
my girl
And she's the baddest thing I've seen in the world
You know that's my girl

That's my girl, that's my girl, that's my girl,
that's my girl, that's my girl, that's my girl,
ooh ooh, that's my girl.
