I'm livin' it up tonight and I'ma
Club hoppin' with all my boys, I'm not
Not lookin' for nothing more
We're gonna keep this city awake tonight

Gonna-start-my-heartbreak dress, she lookin'
So sexy and all so fresh, I kinda
I kinda know that she's dangerous
I got it bad and I can't resist her

There's somebody that wants you baby
There's somebody that wants you baby
There's somebody that wants you baby
And he's standing right here (I'm standing right here
girl)

There's somebody that wants you baby
There's somebody that wants you baby
And I wanna be with you
But you bring me, you bring me trouble

You're a real troublemaker, you're a real troublemaker,
You're a real troublemaker but I want ya
You're a real troublemaker, you're a real troublemaker,
You're a real troublemaker but I want ya

Now I'm addicted
Cause she's so wicked
She pulls me in, throws me off
With her kisses

She makes me jealous
With other fellows
I love and hate the sweet mistakes
But I can't leave her

There's somebody that wants you baby
There's somebody that wants you baby
There's somebody that wants you baby
And he's standing right here (I'm standing right here
girl)

There's somebody that wants you baby
There's somebody that wants you baby
And I wanna be with you
But you bring me, you bring me trouble

You're a real troublemaker, you're a real troublemaker,
You're a real troublemaker but I want ya
You're a real troublemaker, you're a real troublemaker,
You're a real troublemaker but I want ya

Fall up in that club like who that?
Umm yea, she flashy
You be snappin' pics when I throw it back slow
I give it to you how you like it
I cough it, you get indicted
Then it's straight to the club like x-acto
Take 2 at this hearing, call B in the morning
It's back to the morning, face time, I phone in
On the double, then break under the huddle
Your girl's on the line and it sounds like trouble
Hmm well, bye

There's somebody that wants you baby
There's somebody that wants you baby
There's somebody that wants you baby
And he's standing right here (I'm standing right here
baby)

There's somebody that wants you baby
There's somebody that wants you baby
And I wanna be with you
But you bring me, you bring me trouble

Trouble!
And I wanna be with you
But you bring me, you bring me trouble

You're a real troublemaker, you're a real troublemaker,
You're a real troublemaker but I want ya
You're a real troublemaker, you're a real troublemaker,
You're a real troublemaker but I want ya
