"You Got Me"

Visit "[You Got Me](#)" on MotoLyrics.com

You got my love, yeah
You got my love

Some would say love's difficult
Some would say unfair
You know the crazy life I lead
Doesn't always mean I couldn't be there
Doing the things that we do
Just the every day affairs
Girl just hold on tight
On this coastal ride
Believe me when I tell you that I can't

Girl, you got, you got the best of me
My love is always gonna be yours
Don't go quitting now on me
You should know that nothing's gonna change

'Cause I knew the first time I saw you
That something was taking me higher
Gotta tell you over and over
You got my love, yeah
You got my love

I know we get a little crazy
Nothing can ever touch us baby
I'll be doing you right
You got my love, yeah
You got my love

Don't know why you're feeling blue
You said you'd understand
You know I do it all for you
So why's this conversation getting out of hand girl

You got, you got the best of me
My love is always gonna be yours
Don't go quitting now on me
You should know that nothing's gonna change

'Cause I knew the first time I saw you
That something was taking me higher

Gotta tell you over and over
You got my love, yeah
You got my love

I know we get a little crazy
Nothing can ever touch us baby
I'll be doing you right
You got my love, yeah
You got my love

Oh
You got my love
You got my love
My love, my love
Oh, you got my

So baby, sincerely
I swear I'll never break your heart
'Cause without you I'm empty
And left with the memory
So let me show you just how good this love can be

Girl, you got my love
You got my love
You got my love

Girl, you got my love
You made me believe
Baby

'Cause I knew the first time I saw you
That something was taking me higher
Gotta tell you over and over
You got my love, yeah
You got my love

I know we get a little crazy
Nothing can ever touch us baby
I'll be doing you right
You got my love, yeah
You got my love

'Cause I knew the first time I saw you
That something was taking me higher
Gotta tell you over and over
You got my-my-my-my-my-my-my
