You Shine Like a star  
and you don't even know it  
I'll make You my queen  
I'll take You somewhere  
Where You need to be  
A special place  
Where You will be free

(Bridge)

You know i love the way You move  
And every little thing You do  
If You let me roll with You  
I ma make You feel brand new  
Your wishes will come true

(Chorus)

You gon shine like a start  
Girl It's who You are  
oh baby tonight  
It's going going going down

You gon shine like a start  
Girl its who you are  
oh baby tonight  
It's going going going down

(Verse)

i can change your life just like a magic  
check out my wrist yo so icing

(Bridge)

You know i love the way You move  
And every little thing You do  
If You let me roll with You

Girl It's who You are
