Intro

I know you playing  
Oohh  
It's jlucson  
Yeah  
I'm back again  
It's another one  
An hum

(Verse)

I never thought I'll find happiness in my life (hoo hoo)  
I never thought a man could fly (oh hoo)  
Till the day I found you baby (oh hoo)

You gave me a reason  
To trust, believe in you  
The first time I saw you  
I truly smiled  
When I saw your face I said this is it  
You all I needed you all I dreamed you  
Oh baby

(Bridge)

You gave me a reason to believe in love  
You gave me everything that I ever wish for  
Girl I can't figure out  
What a hell went wrong  
You lied to me

(Chorus)

You promised me everything will be okay  
You lied to me  
You promised me you never let go  
You lied to me  
I'm walking away I am done pretending  
You lived to me  
What goes around comes back around

(Verse)

I'll forget your name

I won't forget her name  
I may have lost this game  
But I won't lose the next one  
If you see my reflection girl hum  
It's time you figure out  
It's a little too late to fight for my love  
Coz it's long gone  
I wish you could love me like I loved you  
I wish you could have seen the best in me oh  
You lied to me.  
Haaa]haaahaaa

(Chorus)  
You promised me everything will be okay  
You lied to me  
You promised me you never let go  
You lied to me  
I'm walking away I am done pretending  
You lived to me  
What goes around comes back around

(Bridge)

You gave me a reason to believe in love  
You gave me everything that I ever wish for  
Girl I can't figure out  
What a hell went wrong  
You lied to me

(Chorus)  
You promised me everything will be okay  
You lied to me  
You promised me you never let go  
You lied to me  
I'm walking away I am done pretending  
You lived to me  
What goes around comes back around
