It's too damn hot out to go walking
The temperature's pushing a hundred degrees, yeah
Motor's running
Come on, hop in
Wherever you're headed, I've got a full tank of
unleaded

Come on and throw your stuff in the backseat
Jump in the front and I'll be your taxi
It's too hot to walk if you ask me
You can ride with me, yeah
Just let your laundry blow out the window
We're gonna see how far this car can go
Any which way that the wind blows
Baby you can ride with me, yeah

Four wheels beneath us and they're rolling
The fume's a good one from the passenger seat, yeah
Just keep those pretty long legs showing
I'll be your chauffeur
Scoot over, a little closer

Come on and throw your stuff in the backseat
Jump in the front and I'll be your taxi
It's too hot to walk if you ask me
You can ride with me, yeah
Just let your laundry blow out the window
We're gonna see how far this car can go
Any which way that the wind blows
Baby you can ride with me, yeah

Turn up the radio, crank it loud
That song they're playing is our song now

Ride, ride, ride with me

Come on and throw your stuff in the backseat
Jump in the front and I'll be your taxi
It's too hot to walk if you ask me
You can ride with me, yeah
Just let your laundry blow out the window
We're gonna see how far this car can go

Any which way that the wind blows
Baby you can ride with me, yeah
