It may rain tomorrow  
But tonight is all that's on my mind  
My baby's here in my arms  
You know we've got it bad  
'Cos tonight we've got the love virus

We've both come down with the love bug  
And it means we've got to stay in bed  
I hope yous guys don't catch this  
'Cos it knocks you right off your legs

Love bug  
Talking 'bout love bug  
I said love bug  
You know I mean love bug

Let me explain the symptoms  
First of all there's hardly any pain  
With the love bug  
You kind of lose your memory  
You see, hear, think, talk, dream, care  
Just for one person, only

Don't come down with the love bug  
'Cos it drives the sense  
Right out of your head  
This thing strikes in a curious way  
It only hits when you're not looking

Don't stand close to anybody  
Who'll contaminate you  
If you come down with the virus  
Well, you'll never be alone again

Don't come down with the virus

We've both come down with the love bug  
And it means we've got to stay in bed  
I hope yous guys don't catch this  
'Cos it knocks you right off your legs

Love bug

Talking 'bout love bug  
I said love bug  
You know I mean love bug  
I said love bug  
Talking 'bout love bug

Yeh, love bug  
You know I mean love bug  
Yeh, love bug  
Talking 'bout love bug  
Yeh, love bug
