

## Joan Armatrading "True Love"

Visit "[True Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I've seen it in your eyes  
And I've heard it in your voice  
The way you speak my name  
Tells me there's no doubt  
That the dream that I held on for  
Will be everlasting

You know poverty can be romantic  
In black and white it looks like art  
Just as long as we're together  
I couldn't care less

We've got harmony and understanding  
It's love for the first time  
Like the morning sun that's breaking  
Giving out that special light

True love, true love  
We've got true love, true love

We've laid the right foundations  
And we've built our love on trust  
No one can tear the walls down  
That surrounds us

We've got harmony and understanding  
It's love for the first time  
Like the morning sun that's breaking  
Giving out that special light

True love, true love  
We've got true love, true love

Now I'm certain of the future  
Now that I am in your arms  
And you tell me I'm the one

We've got harmony and understanding  
It's love for the first time  
Like the morning sun that's breaking  
Giving out that special light

True love, true love  
We've got true love, true love  
You can't buy a faithful heart  
Or true love, true love

(True love)  
Poverty can be romantic  
(True love)  
In black and white it looks like art

(True love)  
Just as long as we're together  
(True love)  
I couldn't care less

(True love)  
Poverty can be romantic  
(True love)  
In black and white it looks like art

(True love)  
Just as long as we're together  
(True love)  
I couldn't care less

(True love)  
Poverty can be romantic
