I defy, I love your way
How could it be different?
Defy, I love your way
How could it be different?

Now I'm kissing the real you
Now I'm kissing the real you

Will I get through my dark day?
Can you hear me?
Can you hear me?

How could it be different?

I see the stars around your face
They never seem to hurt at all
The stars around your face
They never seem to hurt at all

Now I'm missing the real you
Now I'm missing the real you

Well, I got through my dark day
Did you fear me?
Did you fear for me?

How could it be different?

I don't want to see my baby fall
It's the dawn I feel becoming ever after
This is my matter, dear

I defy I love your way
Well, how could it be different?
Defy, I love your way
How could it be different?

Well, I got to know you today
And I adore you
I adore you

Ooh, now I'm loving you

Ooh, now I'm loving you
(How could it be different?)

Ooh, now I'm loving you
Ooh, now I'm loving you
Ooh, now I'm loving you

Ooh, now I'm loving you
(How could it be different?)
Ooh, now I'm loving you
Ooh, now I'm loving you
