This is the moment I been waitin' on  
And thinkin' on the whole day through  
I'm so excited that my tongue gets tied  
When I get next to you  
It's all messed up I'm afraid  
I'll never get the chance  
So the time is now  
But I wish I had a better plan  
How to make contact  
I wanna make contact  
I wanna make contact, oh yeah  
I wanna make contact  
I love to watch ya  
But I never let ya catch me  
When I'm starin' at you  
Ya look so special  
And I really wanna tell ya  
But I never do

We go through life  
Like two ships  
Passin' through the night  
If I could break the ice  
Then I'd know it'd be alright  
Wanna make contact  
Wanna make contact  
Wanna make contact, oh yeah  
Wanna make contact  
I could be satisfied makin' it with you  
Then doin' it over and over and over  
The whole night through  
I wanna make contact
