I like the way you move, I like the way you feel  
It's just lust  
But don't kid yourself this love ain't for real  
It's just lust

I wanna take you home rock you all night long  
If you think it's love then you're thinkin' wrong

It's just lust  
It's just lust

Move baby move and you make me melt  
It's just lust  
But you're only a hit below the belt  
It's just lust

Now don't you call it love 'cause my heart ain't buyin'  
When you're outta my sight you're outta my mind

It's just lust  
It's just lust  
It's just lust  
It's just lust

I wanna take you home rock you all night long  
If you think it's love then you're thinkin' wrong

It's just lust  
It's just lust

Don't you know it's just lust  
It's just lust  
It's just lust  
It's just lust

It's just lust  
It's just lust  
It's just lust
