(J. Jett/R. Cantor/M. Caruso)

I go out about five  
I gotta job to stay alive  
Downtown I'm so lost  
Every fool around me is my boss  
I can't wait to get back  
Leaning on your shoulder  
We don't sleep you play rough  
And when it comes to going down we never get enough

Long live the night  
When I can hold my head up high  
Long live the night  
Cause I know you'll be standing by

And all day I'm just dirt  
Don't get no breaks just do the work  
I'm so bored I watch the clock  
And when the sun is down  
I finally get to stop

And I love the things that we do  
You really work me over  
Don't have to crawl  
Life is mean  
Cause you make me so tall  
And I feel like a queen

Long live the night  
When I can hold my head up high  
Long live the night  
Cause I know you'll be standing by

Long live the night  
I'm in your arms and I'm all right  
Long live the night  
Just keep me from the morning light

You and I have dreams so sweet no one can take away  
Til the day we're on our feet  
Keep me going cause we got the night

And you know how to do me right

Long live the night

Long live the night

Long live the night

I'm in your arms and I'm all right

Long live the night

I'm safe until the morning light
