Words & Music by Carole King, Wayland, and Rob Hyman

Why do we isolate each other
All the walls we build between us
Make it so hard to be together
How can we tear at one another
When the thing we have in common
Is an uncommon love

Walls can fall
Tears can mend
Why can't we reach across the line
And touch each other

Here on two sides of the truth
We've a middle ground in common
An uncommon love

Me - I get lost in my emotions
And I say things in the moment
And sometimes I hurt you
You - think it's a hopeless situation
But there's something you've forgotten
We share an uncommon love

Time can heal
And hearts can mend
So why can't we reach across the line
And touch each other

When will we ever learn
That the thing we have in common
Is an uncommon love
We have an uncommon love
