Was it confidence or irreverance
Complication fails lighting the light in your eyes
No all the memories there no good to me
With a perfect smile living a life you and I
But it's not 1 2 3 4 love

And I'm done with the lies and I'm done with the pain
Done with those nights I'm up screaming your name
I can't let go of you or I'm all alone
I'm so sick of your pressures I wont play your game
All of the while I wont be the same
I can't let go of you or I'm all alone

All these visuals stuck inside my head
Were so blind to see living a life that was dead
Dreaming as we fall irreplaceable
Time to wake up it's over and leave it alone
But it's not 1 2 3 4 love

And I'm done with the lies and I'm done with the pain
Done with those nights I'm up screaming your name
I can't let go of you or I'm all alone
I'm so sick of your pressures I wont play your game
All of the while I wont be the same
I can't let go of you or I'm all alone
