

Joann Rosario "Never The Same"

Visit "[Never The Same](#)" on MotoLyrics.com

I remember when I gave my life to You
Never took a second thought to take it back from You,
why?
You're loving me, I'm loving You from day to day
I really wanna please You with my love Your way

Y'all hear me praise Him till it shake your core
We can do the thing, we still need Him more and more
We lift high up Your name and we do proclaim
We're not the same in the game, everybody come on

Lord we enter in with thanksgiving
Hearts are filled with praise and we're lifting
Hands in adoration with a song of joy and peace
A never ending celebration to the One who died for me

There's something we long for
Can't help but ask for more
I know you've heard me say this time and time again
Satisfy this deep yearning within

Lord we are waiting, anticipating
Your presence and glory makes us cry holy
Fall and embrace us, Your touch so contagious
It fills us with life and we're never the same

Surrounded by Your power, Your love it knows no end
Heart full of compassion draws us close again
There's nothing, there is no one who compels us like
You do
We will not be satisfied till we have all of You

There's something we long for
Can't help but ask for more
I know you've heard me say this time and time again
Satisfy this deep yearning within

Lord we are waiting, anticipating
Your presence and glory makes us cry holy
Fall and embrace us, Your touch so contagious
It fills us with life and we're never the same

Lord we truly wait, with our hearts anticipate
With our mouth we sing Your praise
Let Your presence fill this place, yeah

Lord we are waiting, anticipating
Your presence and glory makes us cry holy

Lord we are waiting, anticipating
Your presence and glory, makes us cry holy
Fall and embrace us, Your touch so contagious it
Fills us with life and we're never the same

Oh Lord we want Your presence
Right now we need Your presence
We're hungry for Your presence
Can't live without Your presence

This place, right now
Hear our praise and come down
Fill us with Your life
And we're never the same, no, no

Oh Lord we want Your presence
Right now we need Your presence
We're hungry for Your presence
Can't live without Your presence

This place, right now
Hear our praise and come down
Fill us with Your life
And we're never the same
