Intro:

Thanks be unto God
Thanks be unto God
In everything
Thanks be unto God
Our God, our God

Verse 1:

There have been days
I thought I wouldn't make it
It seemed life was over
No way to survive
I lifted my eyes
And looked to the heavens
Peace filled my mind
I couldn't help but cry

Chorus:

Thanks be unto God
Who causes us to triumph
thanks be unto God
Who gives us victory
In everything we are overcomers
Thanks be unto God
Our God, our God

Verse 2:

I know it seems hard
But I promise you'll make it
Just wait on the Lord
He will renew your strength
Lift up your eyes
And look to the heavens
Open your mouth
Shout out loud
Say...

Chorus:

Thanks be unto God
Who causes us to triumph
thanks be unto God

Who gives us victory
In everything we are overcomers
Thanks be unto God
Our God, our God

Bridge:
We're not ashamed
To lift up His name
He is so awesome
Our love we proclaim
Hands lifted high
Praises we sing
A song of thanksgiving
We bring to the King

Vamp:
So we praise You, we praise You
Lord we love You, we love You
Yes we thank You, we thank You
For everything, everything
We adore You, we adore You
There is no other God stronger than You
Lord we bless You
We bless You for everything, everything
You're the Healer, Provider
You are holy, magnificent and true
Great Jehovah
We thank You for everything, everything

Chorus till fade:
Thanks be unto God
Who causes us to triumph
thanks be unto God
Who gives us victory
In everything we are overcomers
Thanks be unto God
Our God, our God
