Day after day I danced in your shade
My smile hid the pain
And I stored it away
As your credits rolled by
I stood as your prize
But I was craving so much more
Oh I was wasting away
Tell me why oh tell me why
Is it easier to hurt myself
Than simply say

Chorus:

I don't love you,
I don't need you,
I don't want to understand
Saying you love me
Makes it too easy
You can't fix me this time
Cause I'm broken
Ooh broken, we're broken
Night after night
I thought I could lie
But it was burning a hole

Chorus:

I don't love you,
I don't need you,
I don't want to understand
Saying you love me
Makes it too easy
You can't fix me this time
Cause I'm broken
Ooh broken, we're broken

I should feel guilty but I don't
We should stop, but we won't
Love it complicated always
In your eyes I see the pain
Boy you know I feel the same
Love is complicated always
