I love you, say we're together baby, you and me

I can only give my life and show you all I am
In the breath I breathe
I will promise you my heart
And give you all you need if it takes some time
And if you tell me you don't need me anymore
That our love won't last forever
I will ask you for a chance to try again
To make our love a little better,
Ooh...

I love you, say we're together baby,
Say we're together, oh
I need you, I need you forever baby, you and me

You say you hardly know exactly who I am
So hard to understand
But I knew right from the start, the way I felt inside,
If you read my mind
And if you tell you don't need me anymore
That our love won't last forever, no
I will ask you for a chance to try again
To make our love a little better

I love you, say we're together baby,
Say we're together, oh
I need you, I need you forever baby, you and me

Remember when you used to hold me,
Remember when you made me cry
You said you loved me, oh, you did, yes you did

I love you, say we're together, baby, say we're
together, oh
I need you, I need you forever, baby, you and me
