

Job For A Cowboy "Fearmonger"

Our apparent saviors have placed arms and
ammunition
Directly into the hands of demons of the south
They've molded a gunrunning scandal so inflammatory
it makes one nauseous
At the mouth
Their personal formulation to smother a weakening
second amendment
Immense fraud!
Fair millions of malignant imaginations to sit, watch,
cheer and applaud!
Our tombstone are stepping stones in this struggle for
control
Our tombstone are stepping stones in this struggle for
control
A failed concocted plan for the veiled executioner's
throne of blood
Opening the ignorant gates, let. loose-of this fear
mongering flood
