Verse 1:

When I first looked in your eyes  
I began to fantasize  
About you touching me  
Watching you imagine me  
All the pleasures that you could bring  
What's coming over me

Bridge:

This physical attraction  
Just won't go away  
I can't fight this feeling  
It gets stronger everyday

Chorus:

When I get close to you  
I think about making love  
When I get close to you  
I feel like playing rough  
When I get close to you  
I think about making love  
When I get close to you  
I feel like playing rough...

Verse 2:

Under your spell I've lost myself  
It's only you and no one else  
You can do anything to me  
I know you can satisfy  
Every need and my desire  
You got a hold on me

Bridge:

This physical attraction  
Just won't go away  
I can't fight this feeling  
It gets stronger everyday

Chorus:

When I get close to you  
I think about making love

When I get close to you  
I feel like playing rough  
When I get close to you  
I think about making love  
When I get close to you  
I feel like playing rough... 2X

Bridge:  
This physical attraction  
Just won't go away  
I can't fight this feeling  
It gets stronger everyday

Chorus:  
When I get close to you  
I think about making love  
When I get close to you  
I feel like playing rough  
When I get close to you  
I think about making love  
When I get close to you  
I feel like playing rough... 2X
