Not open
Throw a simple gesture
Catch em while they're listening
Oh Oh Oh
When you're lost they're found
Make another round
Make another good round
Living lonely loving idols
Only losing your time
Kick it off with a frown
And go to bed with a smile
Oh oh oh
But you're gonna go down
Make another round
Make another good round
Fast forward back to rock bottom
Get a grip on
Gotta get it slowin down
(Gotta get it slowin down)

Chorus

Another lover make it on the double
A closed mind
No wonder you're losing your touch
I see your little insomnia
Siding off give em more

Can we dance?
Maybe now you get the picture
Shoulda seen me coming
Now you've seen it all before
Instigating intimate
Avoiding contemplation
You should have seen me coming
Now we're all coming out

Not open
Leaving little look for
In proving on the falling off
The ladies and they're gentle movement
On your heart when your blood stops flowing
Can i get a hug or a fictional novel

Or a written exam
Take em out
Put em down
Put em all to the test the test
Inside your wrath
Not open
Not open
We're falling to our knees for the
Ladies and gentlemen

Chorus

Another lover make it on the double
A closed mind no wonder your losing your touch
I see your little insomnia
Siding off give em more
Another lover
Make it better double it up
The third times a charm but it isn't enough
I see your little insomnia
Siding off give em more

Don't close your eyes
It'll lose if you blind
Take it
Make it better
Even when the timing is right
Your glowing
Maybe he can be your love at first sight
Open your eyes
Open your eyes
As for the idols of classmen will casting
A gold smith will love
The layer will gold
Haven't you heard?
Haven't you heard?
Fast forward back to rock bottom
Get a grip on
Gotta get it slowin down
(Gotta get it slowin down)

Chorus

Another lover make it on the double
A closed mind
No wonder you're losing your touch
I see your little insomnia
Siding off give em more
Another lover
Make it better double it up
The third times a charm but it isn't enough
I see your little insomnia
Siding off give em more

Searching in wrong places
Searching in wrong places
Way to keep you straining
Leaving messages in bottles
Resting off thinking high hopes
Searching in wrong places
Searching in wrong places
Way to keep you straining
Leaving messages in bottles
Resting off thinking high hopes

This is our lie
This is our life
You're missing out
Losing blaming others for all your faults
This is our lie
This is our life
Never gonna change than you'll
Always get the same results
