Now you're all on your own
All the instigators stepping to you out of your toes
T-t-t-take one for the team, pray that nobody knows
Oh, and they call themselves winners
Oh, they'll be quitting before the route even ends
All the members of the faculty are misunderstood
All the students telling lies, but they're telling
them good
All the leaders of the cliques don't get it
Don't be a rope'll be gone in a minute

Oh you'll be coming around
Even after hour advertising claiming that you
couldn't be found
You believe that'll be leaving you for miles?
Forget reality before it gets out and
Oh they'll be gathering now
After learning that the only way to leave them was to
keep them around
Take it back, take it back, tell the others
To spread the word and it might even change your
style

They'll be screaming Hallelujah till the break of the
dawn
But I won't be taking bullets cause my enemies are
already gone
Hold your applause till its over
ll be preparing for another good night
All the sisters and the brothers for the thing never tell
We're all completely aware, but we're hiding it
well
Once more lets hear it for the upper
Classes giving working people something to complain
about

You'll be coming around
Even after hour advertising claiming that you
couldn't be found
You believe that'll be leaving you for miles?
Forget reality before it gets out and
Oh they'll be gathering now

After learning that the only way to leave 'em was to
keep 'em around
Take it back, take it back, tell the others
To spread the word and it might even change your
style

(Hey! Hey! Gotta let it go)
May be sure another lady that's the way that I
roll (Hey! Hey! Gotta let it go)
You keep pulling, pulling, but I let you go (Hey! Hey!
Gotta let it go)
I let you go (Hey! Hey! Gotta let it go)

Oh, you'll be coming around
Even after hour advertising claiming that you
couldn't be found
Can you believe that I'll be leaving you for miles?
Forget reality before it gets out and
Oh they'll be gathering now
After learning that the only way to leave 'em was to
keep 'em around
Take it back, take it back, tell the others
To Spread the word and it might even change your
style
