You've been going 'round bragging -  
'Bout what you did to me -  
All of your friends they believe -  
That I was easy -  
How can you tell those funky lies -  
And say that it's true -  
Your immaturity (boy) -  
Must be fooling you -  
Ego maniac  
Well, I won't let you hurt me anymore  
You're just a ego maniac  
Don't come back here knocking at my door -  
Say say say what you want -  
I ain't got nothing to hide, no no no -  
You're just a poor excuse of a man -  
And you can't hurt my pride -  
Oh, oh oh, oh boy -  
You know you think you're so smart -  
You took my love for granted -  
But you can't break my heart -  
You're gonna need my love (my love)

Just you wait and see

You found love in the mirror

So listen boy, stay away from me -

Ego maniac

I won't let you hurt me anymore, no

You're just a ego maniac

Don't come back here knocking at my door -

You're gonna need my love (my love)

Just you wait and see

You found love in the mirror

So listen boy, stay away from me -

Chat break

Ego maniac

You're just a ego maniac

Ego maniac

You're just a ego maniac
