Yeah, said it sounds so good to me
You gotta get on up
Gotta get on up, yeah, yeah, yeah
You gotta get on up, now
Say it again, Jodeci

Get on up
Gotta get on up
You gotta get on up, now
Wait a minute, let me tell you

Everybody grab somebody
Turn this mutha into a party
Fellas take your lady's hand
Ladies go and choose your man

There's no need to be afraid
Friday night, let's all get paid
Positive is the attitude
Negative is not the mood

Get on up, no, no
You gotta get on up
You gotta get on up, now
Let's say it again

Get on up
And you can't sit down
You gotta get on up, now
And you can't sit down

Now that everybody's movin'
Everybody in here is groovin'
Everything is alright
This atmosphere is so nice

The D.J. is doin' his duty
All the ladies shakin' their booty
And the night is still young
And the party's just begun, yeah

Get on up

And you can't sit down
You gotta get on up, now
And you can't sit down

Get on up
Get on up
And you can't sit down
You gotta get on up, now

Get on up
And you can't sit down
You gotta get on up, now
And you can't sit down

Get on up
And you can't sit down
You gotta get on up, now

Party, party, party all day, baby
All day, don't you never, never
Never, never, never stop
Never stop, never stop
And you can't sit down

Get on up
And you can't sit down
You gotta get on up, now
And you can't sit down

Get on up
Everybody just get on up
You gotta get on up, now
Get on up, ooh yeah

It feels so good
Said it feels so good
Said it feels so good
I just wanna get on up

And you can't sit down
And you can't sit down
You gotta get on up, now
And you can't sit down
You gotta get on up
Get on up
