Come in and shut the door I could leave my back down  
on  
The floor Girl you are so bold Come and take control  
Riding up and down  
Give you all my lovin' round and round Suck on your  
toes And we can start  
to blow If you know You can get a ride I wanna slide  
tonight Baby, I'm  
gotta taste your love tonight Sugar, one more time,  
come on If you know  
You can get a ride I wanna slide tonight Baby, I'm  
gonna hear you moan  
so right Sugar Feel my tongue move up and down I can  
taste the waters streaming  
down Girl you taste so fine You're one of a kind You're  
one of a kind Lady  
move with me So I can keep you humping to my beat  
Don't you worry about  
the time Temperatures are to climb If you know You can  
get a ride I wanna  
slide tonight Baby, I'm gotta taste your love tonight  
Sugar If you know  
You can get a ride I wanna slide tonight Baby, I'm  
gonna hear you moan  
so right Sugar All day And baby all night We can rock it  
Just hold me tight  
And I won't ever let you go o-no-no Girl I know it's  
gonna feel so right  
We can rock it Just hold me tight And don't ever let me  
go o-no-no We can  
start to flow We can start to flow Oh, DeVante so low If  
you know You can  
get a ride I wanna slide tonight Baby, I gotta taste your  
love tonight  
Sugar If you know You can get a ride I wanna slide  
tonight Baby, I'm gonna  
hear you moan so right Sugar
