VS 1:

Reflecting back on when I met you

I was so lost

In this crazy world

Like a father to his child

Lord you saved me

Gave me wings of love

To soar so free

You are the air I breathe

You are my everything

You are my only hope

The wind beneath my wings

CHORUS:

And I never knew what love was

Until I met you

I never felt peace before

Until you touched me

I didn't know how to breathe

Until you showed me

You are my everything, everything, everything, yeah

VS 2:

Beside you Lord

There is no other

Creator of the universe

And you loved me so

You gave your only son

The only way, the only truth, the one

You are the air I breathe

You are my everything

You are my only hope

The reason why I sing

Chorus 3x
