If you think her eyes are brighter look at mine  
If you think her lips are softer look at mine  
If you think her love is stronger don't you hang around  
much longer  
(Stop awhile take a time and get yourself to my place)  
and look at mine  
If you think her clothes are better look at mine  
If she writes you nice love letters look at mine  
If you think her heart is willing don't you wait to make  
that killing  
(Stop awhile take a time and get yourself to my place)  
and look at mine  
Look at mine look at mine look at mine I've got  
everything you need all the time  
If you think her smile is sunshine look at mine  
If you think her looks are so fine look at mine  
If you think her future's better just forget the day  
you've met her  
(Stop awhile take a time and get yourself to my place)  
and look at mine  
[ trumpet ]  
If you think her smile is sunshine...  
Hey look at mine look at mine look at mine  
Hey look at mine look at mine look at mine
