Together
-----Jody Watley & Larry

Performed by Jody Watley

There seems to be some mystery
Would you help me out cause I
I wanna be with you
I wanna do things we used to do

What has come between us
And can we fix what
I can
And it
Spoke softly; cause you
Together you and me the way it
Got to be it
Together you and me you and me

There
Just the sting of pain and the hurt of broken hearts
I wanna make it right
Why can

It don
We both know the part we played
Do you deny your passion?
Forget about pride

Chorus
