Life can be a challenge
At times it's so overwhelming
Everybody needs someone to love, someone to care
Everybody needs someone to love, someone to care
Baby that's you

Whenever I'm with you, it's alright
Whenever I'm with you, feels good

You have an incredible way, Baby
'Cause you always know what to say

Through the times good and bad
Through the times happy or sad
You were there
You were there
Through the times good and bad
Through the times happy or sad
Lifting me up, Baby

Whenever I'm with you, it's alright being with you
Whenever I'm with you, it feels good, yeah
Whenever I'm with you, you shine a light
Whenever I'm with you, feels good

Everybody needs someone to love, someone to care

Everybody needs someone to love, someone to care

Everybody needs someone to love, someone to care

Everybody needs someone to love, someone to care

Whenever I'm with you, you shine a light
Whenever I'm with you, feels good
Whenever I'm with you, through the times good and
bad
Through the times happy or sad
Whenever I'm with you
