CHORUS (Stephen Marley)

It was written up in the book of life
That man shall endure forever more
It was written up in the book of life
That man shall endure forever more

VERSE

Well did you know the pen
Is stronger than the knife
They can kill you once
But they can't kill you twice
Did you know destruction of the flesh
Is not di ending to life
Fear not of the anti-christ
Did you know that I
Exist before the earth
And did you know my eyes
Are window to the world
Did you know you can't go ah Zion
and ah wear jerry curls
Can't tell di boys from di girls
Your bodies just a vehicle
Transporting the soul
It's what's inside people
Is beauty to behold
Fear not of evil
Every day dem flesh it grow old
Changes of the times take a toll

CHORUS

The one ya name, fear is in the eyes of di beholder
And love is in the presence of the love maker
Life is in the words of the comforter
Endure much longer
Live much longer
Fear is in the eyes of di beholder
And love is in the presence of the love maker
Life is in the words of the comforter

Endure much longer
Live much longer

BRIDGE

A vester on his chest
And Rastafari is his name
A gift of everlasting life
For us to all sustain
Blessing that you all be got
Lessons taught you all forgot
Rasta call I shit you not
Do you remember Elijah
And his chariot of flames
Same blood dat run thru my veins

VERSE Capleton:

The one ya name, fear is in the eyes of di beholder
And love is in the presence of the love maker
Life is in the words of the comforter
Endure much longer
Live much longer
Fear is in the eyes of di beholder
And love is in the presence of the love maker

Life is in the words of the comforter
Endure much longer
Live much longer
Careful how you entertain stranger
Selassie never born inna nuh manger
I'll never crucify as me savior
Elect off himself inna the ruler
Babylon ah nah malfunction well dem a failure
So be careful of dem cellular and pager
Cause I sign see dem I see danger
Som se dem great but Selaisse I greater

CHORUS

VERSE Drag-on:

Hey dick you wanna lick upon shots
Upon a bloodclot
And fill the block with bumper ass cops
Cops me dun talk you know you watch me walks in
My black woman is getting raped across New York sand
Before another brother's in chalk sand
I 'magine somebody said that just a dead sam
See us we do the crime we do the time
Y'all get away scott free
So police they gine pop you b'fore you pop me
Cause if you get me you got me you shot me

Know'll lot me carry shotty since moms slap me
Cause my room sloppy
The youngest nigga out the camp is me
But nobody pampered me
So you better don't ramp with me
Fi see me, me don't play plenty
Chicks me blazed many
Raised plenty fi dollars
Storm my impala
Watch a bum holla
Watch 'im run, hit the floor
Told 'im come, come no
Throw ya ganja pon de air

CHORUS

Watch for sticks and stones
Stumbling blocks in piles
Life is one big road
Miles on top of miles
So blessed be the soul
That always remains a child
And most people don't even smile
There's a natural mystic
Blowing in true the air
So keep it realistic
And always be aware
The truth is crying out
And it's so loud and so clear
But most people won't even hear
Spiritual pollution is in the atmosphere
And with so much confusion
Can one be happy here
The gift of Rastafari is for all man to share
But some would rather to be so unfair
