Hey little shorty
Yeah, I'm watching you
Can we get naughty?
Flyin' high
While we keep creeping
I'm the bird of prey
Let him keep sleeping
Here I come baby

He leaves you every night
He doesn't do you right
How could he jeopardize?
There's hawks up in the sky
And like a bird of prey
My vision gonna sense the night
From miles away
Like a shadow of my love for you

Hey little shorty
I'm stalking you, I'm watching
Can we get naughty?
I'm your black hawk in the window
Why we keep creeping?
I'm swooping through your window
Let him keep sleeping
I'm your black hawk in the window

You got a pretty eyes
So dark and so sexy
They tantalize
In the midnight sky
I'll give you wings to expand
That will take you high
To get away from the vulture
And like a bird of prey
My vision gonna sense the night
From miles away
Like a shadow of my love for you

Hey little shorty
I'm stalking you, I'm watching
