There's a girl around town, for real, she's amazing
Hottest thing around, no doubt, she keeps it right
And the word that came down she's looking for a
dating
She rocks the kinda style every man loves to see

And I wanna get that, I wanna get that
Gonna be, wanna be her latest lover
She's the baddest ever, I'm here to tell ya
That if it's cool for it, I know what to do for her

Have you seen her?
She's a superstar, I gotta meet her
I need to see if the love is as good as it looks
I'm gon' roll it like I should
And now watch me go hard, real G's go hard

I really need her
I know I got a girl but I can leave her
That's the page that I'm on, got me blown
She's my favorite thing that I want
And now watch me go hard, real G's go hard

Now the swagger she brings, it's the coldest thing
She looks like a handful, I want to get a handful
I gotta let her know one time
Everyday in every way, she blows my mind

And I wanna get that, I wanna hit that
Gonna be, wanna be her latest lover
She's the baddest ever, I'm here to tell ya
That if it's cool for it, I know what to do for her

Have you seen her?
She's a superstar, I gotta meet her
I need to see if the love is as good as it looks
I'm gon' roll it like I should
And now watch me go hard, real G's go hard

I really need her
I know I got a girl but I can leave her
That's the page that I'm on, got me blown

She's my favorite thing that I want
And now watch me go hard, real G's go hard

And I tell you what
And through our conversation, she'll know what's up
See, I don't play that so when I say that
Give me a week at the most
And I'll be inside on the low

And I wanna get that, I wanna hit that
Gonna be, wanna be her latest lover
She's the baddest ever, I'm here to tell ya
That if it's cool for it, I know what to do for her

Have you seen her?
She's a superstar, I gotta meet her
I need to see if the love is as good as it looks
I'm gon' roll it like I should
Watch me go hard, real G's go hard

I really need her
I know I got a girl but I can leave her
That's the page that I'm on, got me blown
She's my favorite thing that I want
And now watch me go hard, real G's go hard
