Not so long ago, I was not so popular  
I couldn't find a girl who was into me  
I searched for things to blame, maybe I was strange  
But I knew one day it would all change

Now I'm making joints that turn the club up and down  
Carousel going round and round  
Crazy how they all feel me now  
I still remember

I remember them girls that didn't want to talk to me  
Now I'm making this money  
Now them girls all over me  
I remember them girls that wouldn't go out with me  
Now I'm a big celebrity  
All around the world  
With a million girls  
At my party

From London to LA  
I own a few cafe's  
I ain't trying to boast  
But I got that dough  
I made a video so you could see the life I live  
Gotta casa across from Sammy Sosa's crib  
Laying out by the pool  
Model chicks running around in the nude

Now I'm making joints that turn the club up and down  
Carousel going round and round  
Crazy how they all feel me now  
I still remember

I remember them girls that didn't want to talk to me  
Now I'm making this money  
Now them girls all over me  
I remember them girls that wouldn't go out with me  
Now I'm a big celebrity  
All around the world  
With a million girls  
At my party

They say baby you're the man  
Can we have a one night stand  
Every girl wanna take me home  
Most these girls I would have never known  
I don't have to try  
Before you know it hands is on their thighs  
Before we get into some kinky shit here's the million  
dollar question

If he wasn't that rap cat  
Would you still do that  
If he wasn't Freeway would you still wanna leave with  
him  
Roll with him, got a whole lot of soul with him  
R-O-C got a whole lot of team with him  
Can't be with him  
No fake hoes with him  
Keep the vest closed just in case the 4-4's with him  
Now, Joe with him and they making it pop  
Silly broad what you think we forgot  
Man I remember back in the days  
When he had waves  
I had corn braids and no chains  
Now ya'll smell me  
Go in any party that I want rocking a skully  
Mutha fuckas is all frilly  
Now she running up to me  
Screaming I can get her on the news  
Say my voice get her in the mood  
Just get her to the room  
I hit her once and I'll leave  
Shit leave

I remember them girls that didn't want to talk to me  
Now I'm making this money  
Now them girls all over me  
I remember them girls that wouldn't go out with me  
Now I'm a big celebrity  
All around the world  
With a million girls  
At my party
