Isn't this the world
The place we call home?
If this is the world
Then why do I feel alone?

I've walked around
Just about all my life
(Well, well)
Slept on park benches
Many many nights
(Well,well)

Even remember the days
I had nothing to eat
(I, I)
But someone to love me
Is all I need

What we gotta do?
(What we gotta do)
Me and you
(What we gotta do?)
We have to change our selfish ways
No matter who else does

We have to rise
Rise above
Come together in love

Isn't this the world
(Isn't this the world)
The place that we call home?
(The place, the place)
But if this is the world
(If this is the world)
Then why do I feel alone?
(Why?)

On top of living this life
Of love without
(Well, well)
I've been ignored

And talked about
(Well, well)
This is not the riches
That I live to see
(I, I)
But someone to love me
Is all I need

What we gotta do?
Me and you
(What we gotta do?)
We have to change our selfish ways
No matter who else does

We have to rise
Rise above
Together in love

Isn't this the world
(Isn't this the world? Yeah)
The place that we call home?
(The place, the place, the place, the place)
But if this is the world
(Somebody tell me, somebody tell me)
Then why do I feel alone?

Isn't this the world
(Isn't this the world, yeah)
The place that we call home?
(If this is the place that we call home? Yeah)
But if this is this the world
(If this is the world)
(Isn't this the world?)
Then why do I feel alone?
(Why do I feel alone?)

Isn't this the world
(Isn't this the world?)
The place that we call home?
(The place that we call home)
But if this is the world
(If this is the world)
Then why do I feel alone?
(Then why?)
