Hey!

Can I say something to make you understand that
I'm not your typical, ordinary man see
I'm not one to pressure you
That's not how it'll be baby
Cuz when it comes down to it
It's not up to me
Knowin' its you

Just friends, lovers, one or the other

It's on you

Stay home, take a ride, you decide

It's on you

To the movies, to the bedroom, what you wanna do

It's on you

Hey!

Anything goes on between us two

Long as you know

It's on you

Hey!

Can I say something to make you, make you see that

You will never find someone that

Wants you more than me baby

I wanna cater to you girl

Make everyday your day

Baby we can do it your way

Just as long as it's me and you

Best friends, lovers, one or the other

It's on you

Stay home, take a ride, you decide

It's on you

To the movies, to the bedroom, what you wanna do

It's on you

Hey!

Anything goes on between us two

Long as you know

It's on you

Tell me what you want and

Tell me how you want it

Anything you ask of me
Baby girl I'm on it
Sugar, I'm for you
Baby, that's for sure
Tell me how you want this to go

Best friends, lovers, one or the other
It's on you
Stay home, take a ride, you decide
It's on you
To the movies, to the bedroom, what you wanna do
It's on you
Hey
Anything goes on between us two

Long as you know

Best friends, lovers, one or the other
It's on you
Stay home, take a ride, you decide
It's on you
To the movies, to the bedroom, what you wanna do
It's on you
Hey
Anything goes on between us two
