Gangsta

Yeah, it was a beautiful day, a day for so much fun
Had my white T on, had on my new Air Ones
I was gonna pull out the coupe and drop the top
I was gonna ride around and hug the block

Then she called and said, "I'm on my way
I gotta few hours, I might as well stay"
Now I'm gonna lay back while she drop the top
Now I'm gonna record this, shh, rewind and watch

Now after two hours of footage
Her body could continue to do it
She looks at me and says
Please don't go no where
Give me a second to breathe

It must be magic, it must be magic
She likes the way I give her the magic
She likes her sugar daddy
She wants me to keep givin' her the magic
She loves it 'cause I can do it all

It must be magic, it must be magic
She likes the way I give her the magic, it's magical
She likes her sugar daddy
She wants me to keep givin'
