Mama, I been seein' you around town
Really featuring ya whole get down
I been waiting for the right time to talk to you
Without stressin', see I got some questions

One, do you gotta man, pretty girl?
Two, do you need one in your world?
Three, baby, are you ready for change?

I know a lot of men say a lot of things but
Good girl need a good man
You're smart enough to know that's true
A good man need a good woman
And I'm sayin' that I need you

I know you handle your business
Make your own dough
But baby, I can add to that
You see, you ain't really livin' if you're all alone
So baby, let me handle that

You need a good man in your life
(So true)
Without a good man in your life
(It ain't cool)
But with a good man in your life
(You can't lose)
Who need a good man in their life?
(Baby, you do)

Now whether you and I are meant
In life there's no "For sures"
But if we don't try it out
There are three things that we'll never know girl

One, if you found yourself a shelter?
Two, if I found my better half?
Three, the love we make tonight
Is the best we've ever had?

Good girl need a good man
And your smart enough to know it's true

A good man need a good woman
And right now I need you

I know you handle your business
Make your own dough
But baby, I can add to that
You see, you ain't really livin' if you're all alone
So baby, let me handle that

You need a good man in your life
(So true)
Without a good man in your life
(It ain't cool)
But with a good man in your life
(You can't lose)
Who need a good man in their life?
(Baby, you do)

I'ma treat you real good, you deserve it too
Ain't gon' be no other women, I'll be faithful to you
Conversation in the morning
(The love in your life)
Good meals in the evening
(Hot sex every night)

Take you shopping in Milan on Napoleon
Baby, forget what you need, get what you want
Worst case, all you need is time
Best case, I could change your life

I know you handle your business
Make your own dough
But baby, I can add to that
You see, you ain't really livin' if you're all alone
So baby, let me handle that

You need a good man in your life
(So true)
Without a good man in your life
(It ain't cool)
But with a good man in your life
(You can't lose)
Who need a good man in their life?
(Baby, you do)
