Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand

Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand

Baby you've been on my mind
Fantasizing overtime
Oh girl, I wanna break you down
Till the whole world knows I'm on at

Check out my philosophy
It's not all about between the sheets
I put up with your bitchy moods
It's time that you put papa in the groove

Love and sex
Both were designed
To relieve your mental stress
You'll have it all, when I'm in bed with you

Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand

Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand

Lay back, you know I got you hot
I'm up in all your secret spots, oh girl
You should be givin' it up, givin' it up
I'm yearning just to fill the space between us

And in the morning girl, when you wake up
I'll be right there

If you want me, like I want you
We should get it on

Love and sex
Both were designed
To relieve your mental stress
You'll have it all, when I'm in bed with you

Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand

Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand

Don't leave our faith alone
If we get it on, there ain't no stoppin'
I am dedicated
Give me a chance, no player hatin'

I'll stop using, baby
If you think twice, you won't regret it
Baby, just let me be the man
This is not a one night stand

Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand

Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand

Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand

Girl I adore you
My body's hot for you
In the bedroom of the four star
Gonna be a one life stand
