I just can't believe it's over, damn
I just wanna start over again, oh, oh, oh, oh
I just wanna start over again, oh, oh, oh, oh
I just wanna start over again, no
I just wanna start over again, no
I just wanna start over again

How did it get to be this way?
You and I fussing and fighting almost everyday
Where the sun use to shine now it rains
The look in your eyes only reminds me of the pain
between us

Baby what happened to all the affection
The love and connection we use to share?
Brighter days, they seem so far away
Sometimes I just wanna give up

But if you want it back I'll be willing to stay out the clubs
ballin'
If you want it back change my number
Keep them other hoes from calling
If you want it back girl I'll do it right now no more
stalling
'Cause I want it back, so tell me

Can we? Can we? Can we start it over again?
Been through too much to let it go
I need my shawty, my lover, my friend
Baby let's not fight no more

You know inside we were meant to spend forever
Nothing can stop us as long as we're together
Hold on, give us another chance, I need to know
Can we start over again?

Would be so easy to just turn and walk away
To charge it to the game and look to another day
But dammit something just keeps pulling me in
Girl deep down inside you know this isn't the end
between us

Baby if you hold on to me you'll see
We can make things right if you help me fight
I could be wrong but I'll take that chance
'Cause I think it's worth it, you know it's worth it girl

Baby take me back if without me you just can't eat
Please take me back if you wake up at night reaching
for me
Baby take me back, it may even bring some certainty
Girl just take me back, oh baby

Can we? Can we? Can we start over again?
Said I wanna know, yeah
Been through too much to let it go
I need my shawty, my lover, my friend
Said I need you baby, baby let's not fight no more

You know inside we were meant to spend forever
Nothing can stop us as long as we're together
Hold on, give us another chance, I need to know
Can we start over again?

There's no, no other way I could put it to you
Oh babe 'cause I need you right here with me
Anything to keep this love together I'll do
Oh lady but first you gotta work with me

We both made mistakes along the way that breaks
I'll take the blame for my part and that's a start
But it takes two, tell me are you willing to do the same
in return?
Please don't let it burn

Can we? Can we start over again?
Been through too much to let it go
I need my shawty, my lover, my friend
Baby, let's not fight no more

You know inside we were meant to spend forever
Nothing can stop us as long as we're together
Hold on, give us another chance, I need to know
Can we start over again?

I just wanna start all over again
