You like that baby, I know you like that
Girl, tonight is all for you, a special rendezvous, a table
for two

A table for two, dinner room with a view
Your body's unwinding you, let me eat it up
Gonna start at your toes 'til I hit it up
A table for two, tonight I'm gonna eat on you
But there won't be no add on you's, no teasing you
Gonna kiss on your lips where it's pleasing you

Come on in, lay the table, it's your body I wanna feast
Girl tonight, I'll be your waiter, I'm gonna serve you a
midnight treat
Would you like a little teaser enough to wet your
appetite?
A little taste of something sweeter served just the way
you like

I wanna taste your wine, I want your lips on mine
I wanna pleasure you, baby, anyway you want me to

A table for two, dinner room with a view
Your body's unwinding you, let me eat it up
Gonna start at your toes 'til I hit it up
A table for two, tonight I'm gonna eat on you
But there won't be no add on you's, no teasing you
Gonna kiss on your lips where it's pleasing you

I'll make you say, "Ooh, just a little more"
I think you're ready for the main course
A little cream and cherry thing that I can spread below
your navel ring
I work my way down just a bit lower, I wanna kiss your
body right
And just when you think it's over I'll make it last all night

I wanna taste your wine, I want your lips on mine
I wanna pleasure you, baby, anyway you want me to

A table for two, dinner room with a view
Your body's unwinding you, let me eat it up

Gonna start at your toes 'til I hit it up
A table for two, tonight I'm gonna eat on you
But there won't be no add on you's, no teasing you
Gonna kiss on your lips where it's pleasing you

Fingertips on your lips
Don't it make you wanna cream
Don't say, they so sweet on my tongue
I can feel you sugar rush, here it comes

A table for two, dinner room with a view
Your body's unwinding you, let me eat it up
Gonna start at your toes 'til I hit it up
A table for two, tonight I'm gonna eat on you
But there won't be no add on you's, no teasing you
Gonna kiss on your lips where it's pleasing you

A table for two, dinner room with a view
Your body's unwinding you, let me eat it up
Gonna start at your toes 'til I hit it up
A table for two, tonight I'm gonna eat on you
But there won't be no add on you's, no teasing you
Gonna kiss on your lips where it's pleasing you

A table for two, dinner room with a view
Your body's unwinding you, let me eat it up
Gonna start at your toes 'til I hit it up
A table for two, tonight I'm gonna eat on you
But there won't be no add on you's, no teasing you
Gonna kiss on your lips where it's pleasing you

A table for two, dinner room with a view
Your body's unwinding you, let me eat it up
Gonna start at your toes 'til I hit it up
A table for two, tonight I'm gonna eat on you
But there won't be no add on you's, no teasing you
Gonna kiss on your lips where it's pleasing you
A table for two

A table for two, oh, for a view, oh
On my menu, oh no oh oh baby do
