Bigger more powerful
And yet nobody knows
Let's not forget to discuss
All of the freeloads

Here is the car you drive
The window is open wide
Many nice folks suggest
That we go for a drive
Time doesn't know
What its time for us all to know

I like a yellow shirt
And I like orange shades
I like your green suede shoes
And all the sweaters you made

Here is the car you drive
The window is open wide
Many nice folks suggest
That we go for a drive
Time doesn't know
What its time for us all to know

Escape from the crowd
Escape from the dark
Escape from East Berlin
Escape from the planet Earth
Escape from the Planet of the Apes

Here is the car you drive
The window is open wide
Many nice folks suggest
That we go for a drive
Time doesn't know
What its time for us all to know

We don't know nothing, nobody
No one at all
