Don't have a name face hidden  
New green shoes in the mirror  
Just a booth away from flying  
In the subway looking down

Comb the dye from your hair out  
Silver foil on your fingers  
Superhero, never fear what you don't know

A million cats in the window  
Change your face under the desk, your pencil  
Just a booth away you trace and stencil  
When the pilot light is on the lights they flicker out and  
on

Comb the dye from your hair out  
Silver foil on your fingers  
Superhero, never fear what you don't know

You're never coming down  
No you're never coming down  
No, you're never coming down  
You're never coming down

6 o'clock, the sun asleep  
Pack the bag before your leave  
Iron out the torn up sleeve  
And run away from everything

Open window pulled down shade  
Torn up sheet the bed you made  
Anything I could have said  
To make you stop and think again

Never coming down  
No you're never coming down

Superhero, never fear what you don't know  
'Cause you don't know

Never coming down  
Down, down, down
