If I get to heaven  
The first thing I'll do  
Before I met my maker  
I'm gonna ask around for you

All of heaven's got to know  
The beauty of the truth  
I'll tap an angel on the shoulder  
And I'll be asking around for you

I'm sure you've found a place up there  
Where we could all sit & talk a while  
Play some cards & drink black coffee  
How I'd love to see you smile

If I get to heaven, now  
Oh, I'm prayin now-- it'll,  
It'll be the first thing I do  
I'll tap an angel on the shoulder  
And I'll be asking around for you

I'm sure you've found a place up there  
Where we could all sit & talk a while  
Play some cards & drink black coffee  
How I'd love to see you smile

If I get to heaven now, oh I'm prayin' now  
It'll, it'll be the first thing I do  
I'll tap an angel on the shoulder  
And I'll be asking around for you

I'll tap an angel on the shoulder  
and I'll be coming home to you
