### "When She Dances"

Visit "[When She Dances](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The world is cold tonight  
But everything will be alright  
She walks into the room  
Stars to know her light

Chorus:  
When she dances  
I see where my only chance is  
I feel my whole life start, babe  
When she loves me  
You know she really loves me  
She takes it to the heart

The club is closing down

But will we still hang around  
To hear another tune  
And feel this love we found

Chorus

The night's so fine  
The rose is mine

She's dancing just for me  
I see with every move she makes  
How good it's gonna be

Chorus  
She takes it to the heart
