When all that youâ€™ve tried, leaves nothing but holes
inside,
It seems like youâ€™re wired, to stay here held in time,
Cos nothing seems to change, oh no.
No nothingâ€™s gonna change, at all.
I can see it in your face, the hope has gone astray.

But if you hold tight, shadows will be lost in the light.
Oh cos sometimes, fate and your dreams can collide.
So donâ€™t walk away from me,
Donâ€™t walk away from me,
Donâ€™t walk away from me.

Your feet are stuck, no they cannot move,
Donâ€™t tell me that theyâ€™re glued,
Yeh theyâ€™re far from.
At home, at ease but give sometime to breathe

Cos nothing seems to change, oh no.

No nothingâ€™s gonna change, at all.
I can see it in your face, the hope has gone away.

But if you hold tight, shadows will be lost in the light.
Oh cos sometimes, fate and your dreams can collide.
So donâ€™t walk away from me,
Donâ€™t walk away from me,
Donâ€™t walk away from me.

Cos everthing will be ok,
I know that itâ€™s so easy to say,
But the pain inside will fade,
Please tell me that youâ€™ll stay.

Cos if you hold tight, shadows will be lost in the light.
Oh cos sometimes, fate and your dreams can collide.
So donâ€™t walk away from me,
Donâ€™t walk away from me,
Donâ€™t walk away from me
