It's just your way, so sweet everything seems right
around you
Did you know, that you, have this common way about
you when you touch?
And I wanna know if I could your giirrlllll...

[Chorus - Jennifer Lopez] (Repeat 4x)
You're everything, and everything is you

[J. Lo]
I'm happy to say in alot of ways you changed me
makes me smart
When you said you were glad the day you found me
I picture the way any home if I never found you never

I really feel all of it's real

[Chorus]

[J.Lo - Bridge]
The one who puts her arms around you
The one who lays her head beside you
The one who listens when you need it
When no one else is I just is

The one who knows when something's wrong
The one who knows your favorite song
The one who all your friends love
And your personal one to hug

[Chorus]

[J.Lo] (Joe Budden)

The one to turn to you, and down for you
The one who makes you smile and laughs with you
The one to hold you down I'm there for you
The one, the one, the one
The one to turn to you, and down for you
The one who makes you smile and laughs with you
The one to hold you down I'm there for you
The one, the one, the one
The one to turn to you, the one who makes you smile
Need to be your giirrl...
The one, the one, the one
Your giirrrllllll..
The one to turn to you, the one who makes you smile
Your giirrrllllll..
The one who holds you down
The one, the one, the one
I can be anything you need
(We gon' do it like, do it like rock with you oh!)
(Dubb, the banger ONE!)
