Check me out, I fell in love with the hatred
Love being hated
Ya'll should already know as much as I state it
Niggas ain't thinkin, drunk or sedated
I could care less I give a fuck I made it
Best in the world, put a blog on your playlist
Much that I dated, ya'll cover parade with
Realest to ever do it, hate to interrupt the fake shit
If I said it I meant it trust I don't insinuate shit
I turn a deaf ear to the feed back
You come from the bottom, I come from underneath
that
Ya'll hit the strip club toss a few g stacks
I invest it and quadruple what I see back
See I'm used to the all black, ski mask
Cruise to the louie duffle in elite class
Zero the speed limit I ain't going no where though, just
means they getting no where slow

It's all in your thoughts if you a janitor mop the floor like
a boss
Push the ford like a porsche
Sell the ounce like a bundle
Treat your plain looking girlfriend like a model and the
models gonna want you
Rock the tee like it's an exclusive fit
If she give the best head, just act like you used to the
shit
See I'm good at that
Walk like your dick is that big, if you slip out make her
put it back
Why you wanna hate me
I'm in the club so low key that you barely know it's me
Don't even like rap
In the cars flow is tree I'm like jack butterfly more
virgins I'm on it like that
Ain't the richest or the flyest best dressed, just the
sickest and the nicest, best kept
So when they hate me it's fun cause I wasn't even a
threat till they made me one

All I did was take a small hood nobody knew about

Repped it let the game know something new was out
Gave ya'll my slang what you saying is old
Made it cool to be yourself, stop playing the role
Stood up to the label said id rather have an opinion
than sell my soul and be a minion
Majors gave him mad looks, was a nice try we gonna
sell the same I just do it off of WiFi
When lyrics was in need around you
Slaughterhouse was born nigga meet the founder
All I did spit like a nigga from another world
Bitch was off ? turned into a covergirl
Only dumb niggas hate on brilliance
Only dudes that won't last hate on resilience
I'm chilling jsut counting my blessings
I guess in essence I'm asking a rhetorical question
