Chorus:

I'm feeling tired and the pain shows  
Such a long way to go now  
Such a long way to go, gotta be strong by myself now,  
such a long road.  
So, so cold, weaken all my bones, but I gotta work hard  
just to reach my goal  
Such a long way to go, so many miles left but I'm here  
now

[Joe Budden]

Please Lord something gotta give  
They say for every negative there's a positive.  
But I aint positive for every buck deposited,  
We still in the hood livin like hostages.  
And never mind colleges,  
School of hard knock scholarship dealing with politics,  
I would just sell success in the store if i could bottle it  
But, I aint a millionaire won't see me Forbes son  
Life is like a beach chair when you can afford one.  
Ruger loaded just in case the war come,  
Might as well everything is comin to the forefront.  
Need a clear head just to think  
And fuck a drink and my two-step nigga  
I'm two-steps from a drink.  
So pressure either bust pipes or it make diamonds,  
No matter how high up the mountain, I stay climbing.  
Freedom I keep chancing,  
So if I fall like Beyonce I just get back up and keep  
dancing.

[Chorus]

[Mr. Probz]

Never met a goal that I couldn't reach,  
Never been a lesson I couldn't teach.  
I done been through the world and back,  
Fuck school I got all the facts.  
All I do is stand tall,  
When they got my back against the wall,  
When it's game time all we do is ball.  
My niggas'll be here in one call, one call.

When shit gets heavy all I do is pick up the phone  
Aint gotta go through nothing alone,  
When shit get heavy all I do is pick up the phone  
Aint gotta walk through this world alone, if I'm on my  
own.

I keep on standing on my own 2 feet  
Everytime that I cry, when I sweat, when I bleed  
See nothing can stop me no nothing except me

[Chorus]

[Joe Budden]

I'm chasing after pies with bags under my eyes,  
You looking at my representative mask is a disguise,  
And I don't do things like I used to.  
The past is the past,  
I'm presently thinkin' bout the future.  
Certain niggas bettin I fall,  
I'm speed joggin through the quick sand,  
I'm jugglin 3 medicine balls  
See I'm coming up, used to share a room with 2  
cellmates  
Now I tower over the devil but this aint Hell Date.  
Long way to go I see my feet getting blisters.  
I dare em' talk to me like Mike Richards  
Or play Don Imus, and think its cool to disrespect our  
sisters  
I guess we got a while fore' they actually get the  
picture.  
I think about Virginia Tech, think about Katrina.  
Niggas that caught Sean Bell slippin with the nina.  
A day before the wedding,  
Safety off the weapon,  
Though all these things play in my head  
I keep steppin'.

[Chorus]
