A place in time
It's now or never
Here we are
Here forever

As you can eat our dust, we're playing ring around the world

This ain't the story of a soldier
It's the story of a nigga they counted as being over
It's just the story of Joseph, a new burp
So if you counted me out
Or why can't you understand and still you had one hand free
I used to do this to feed my son and my family
Now you need those other 5 fingers, they might come in handy
Sprinkle your weed on your blunts
Got haters breaking world records
For the most words eaten at once
Just getting out of my shelves where you've been a sucker for slavery
Fucked fear without a condom, had a baby named Bravery
All hit sack, giving murda on the beat
And fluckin going commercials, make commercial grow me
If it's a hurdle I'mma leap, niggas they threats anyway
Odds ain't in my favor but I'm takin bets anyway
Wash with me in the gin and jersey lost his teen
But none of my shots scratched the necks anyway

A place in time
It's now or never
Here we are
Here forever

As you can eat our dust, we're playing ring around the world

Remember him, Jers kid, new to some old faith
Fans but you sold it out
Now my worth all way
Nerve of them bailing out, probly had no faith
Figured I'd be rapper after the fact that we're soul
mates
Long ago I done been enlighten into yall
But they would get the fresh air when the writing was
on the wall
Was fucked up a while, smoking 2 packs a day
But never mind that, rather talk about some accolades
Got rich wife, you got clean twice
Put hood bitches on covers of magazines twice
When they say it's play fair but shit don't seem right
And my fans looking confused like fluck you mean he
ain't nice?
I stared death in the eyes without shades on
Blink once, open my eyes and they was gone
Ignore the chatter and my crabs in the bucket
Turnt the last throw of the platter
It'll make you niggas mad

A place in time
It's now or never
Here we are
Here forever

As you can eat our dust, we're playing ring around the
world

This here is the victory lap and yet I ain't even win
Where do I begin? How bout when they wouldn't let me
in?
Won't address that setback, passed that shit
I got the black boat and behind to backpack that shit
Concerned with getting my pay up
If I'd never do it he'd be high
Figured I'd just lay up but I don't take the easy shot
From the grimiest tabbinet, grew my pears to respect
this bad act

A place in time
It's now or never
Here we are
Here forever

As you can eat our dust, we're playing ring around the
world

And my guitars are out here

This a movie motherfucker
Yea
Yea
That MME shit, we on it

If by chance I'm past my prime I'm tryina lap it
