[Havoc] Chorus 2x: We hate the law so we break it,

loyal to this life there's no way to escape it,

you either make it or you take it,

if the game's in you, dedicated stay true

Illegal Life

[Noreaga] Yo, I was in Vermada, laid up with gold saga

jungle room, cowboy hat around June

Monaga, had the 45th draga, Capone-N-Noreaga

the saga, sega, mega, network and bodega

dream marvelous, scandelous, black mantis

Illegal life is like my aerolight,

we be your light, hustle night to life

desert storm, and cold form on your norm

run through, hard-boil you like John Woo

the law we hate, drop a cake cut like mix tape

spoil coke plate, you buying fake weight

the next state, contemplate and score jake hesus

conduce, claim bishop in juice, bloody up your goose

now who screamed for truce, Lefrak is Iraq

Illegal life contract, keep 'em back, load up the big

macs

[Havoc] Chorus 2x

[Capone] We hate the law, escalated war with jake,

raise the crime rate

criminal minds regulate the tri-state,

the legacy it never end, illegal life veteran salute

get loot and stay true, corrupt jake make it happen

snatch 'em catching O Z's, put the game on freeze

dedicated hustling won't stop regardless

whatever charges, getting the dough til you go,

observation, direct sale, connects giving, reaching for

ceiling

on the streets again, wild born, the enemy became
your best friend
meet the game closer, mapped out many ways to get
rich
[Havoc] Ay yo, for real crime pays
[Capone] 9 6 the deal, we real about this cheddar,
forever
corner standing, in any weather, heat holding you
down
controlling your ground, stick-up kids come around
and taste the pound, CNN, put our soul on the line
for this life of crime, 2 5 forever shine
[Tradegey Khadafi] 9 6 stay hungry, son collect roughly
while the streets change, me and my man remain
tough (ly)

[Havoc] Chorus 2x: We hate the law so we make(break)
it
loyal to this life there's no way to escape it
you either make it or you take it,
if the game's in you, dedicated stay true
Illegal Life
[Tradegey Khadafi] C A P O N E with me, pappy, Hav and
Pee,
Tradegey Khadafi, N O Y D, a man and me
on some mobb shhh, spark up cigar shhh
Cubans sit back jack, my niggas smoke dat
generate, be the coke razor on a coke plate
back up the crime son, and try to see a triple double
and get my loot back on a time table,
ay yo it's CNN, you soon to see us on cable
at the round table, networked through the label
[Havoc] Illegal life, illegal life, illegal life
illegal life, illegal life, illegal life
